

Assembly Guide

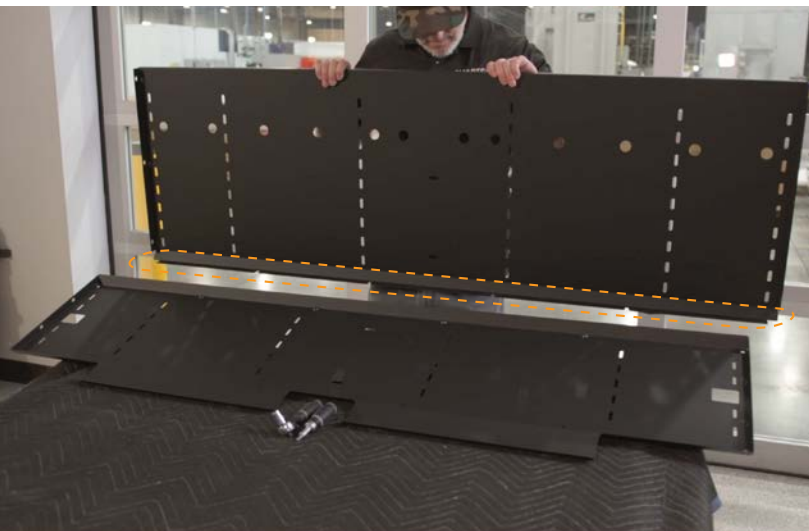

ASSEMBLING THE SOLID BIN

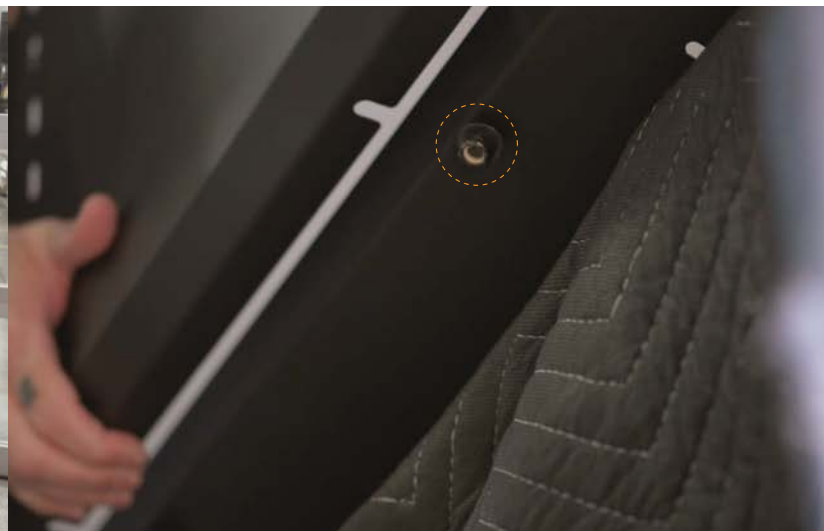

STEP 1 Place the Bottom Panel of the Solid Bin on to a flat surface.

STEP 2 Insert M8 Bolts and flat washer through the holes on the backside of the panel. Loosely install a flat washer and nut on each bolt.

STEP 3 Taking the Back Panel, align the mounting holes with the loosely installed bolts.

STEP 4 Thread the mounting slots through the M8 flat washers and Nylock nuts running along the backside of the Bottom Panel.

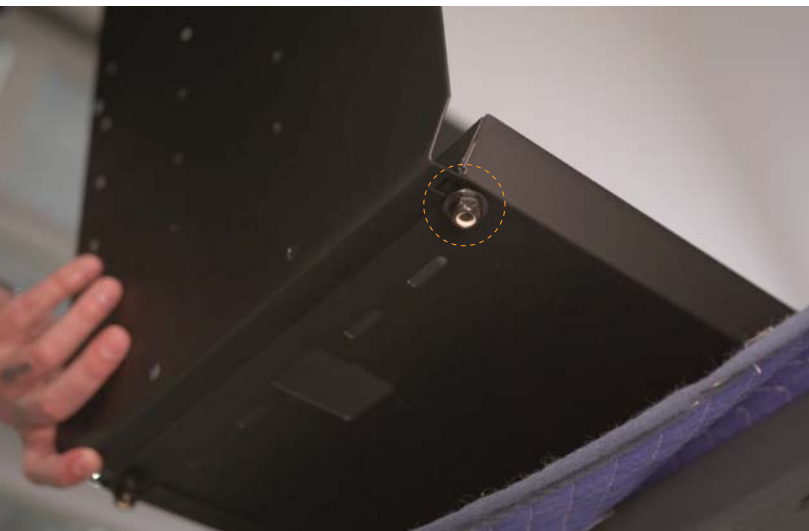

ASSEMBLING THE SOLID BIN

STEP 5 With the exception of the two end bolts, you can firmly tighten all of the hardware.

STEP 6 Insert the M8 Hardware through the two front mounting holes on the Bottom Panel.

STEP 7 Thread the Side Panel mounting slots through the M8 flat washers and Nylock nuts.

STEP 8 Firmly tighten all hardware and then repeat Steps 7 & 8 for the other side.

Wait to tighten the M8 hardware on both ends of the bottom panel.

ASSEMBLING THE SOLID BIN

STEP 9 To secure the Side Panels to the Back Panel, align the mounting holes and loosely install the M8 hardware.

STEP 10 Repeat the process for the other side. Then tighten all of the hardware.

INSTALLING THE SOLID BIN

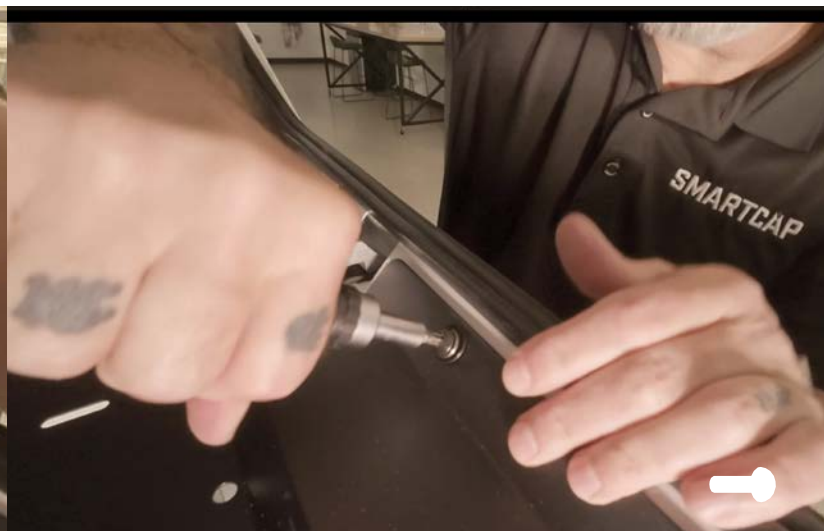

STEP 12 Align the Bin's mounting slots with the ceiling Riv-Nuts. Loosely Install M6 bolts, lock-washers, and flat-washers.

STEP 13 Locate the ceiling Riv-Nuts on the front of the Bin, align the mounting slots, and loosely install the M6 Hardware.

STEP 14 Locate the Riv-Nuts running along the stiffener plate on your cap, align the front lip of the bin, and install the M6 hardware.

STEP 15 Tighten all mounting hardware in the ceiling and stiffener plate Riv-Nuts.

After Step 14, Firmly tighten all hardware.

INSTALLING THE SOLID BIN

STEP 16 There ya have it! Your new Solid Bin is now fully installed.
